

Fayette County

Outdoor adventure awaits for youth in Fayette County! Today’s adolescents are spending less time outdoors than previous generations due to technology, environmental stressors and the fear of safety. The Fayette County 4-H and Youth Development Agent has addressed these issues by promoting the importance of outdoor recreational opportunities and knowledge via social media, special interest clubs and events. From February 2022 to October 2023, 191 youth in grades 1st-12th have been reached through 19 different outdoor events. Participants have really enjoyed the opportunity to explore outdoors. Feedback from participants attending events has been very positive. One middle school 4-H'er stated, "Thank you for this. I really needed it."

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
