

# Measurement – Inch by Inch, Row by Row

## Goal

Students will determine the space needed to grow the vegetables for a soup recipe. They will then make the soup using seasonal ingredients from a local farm as an optional extension activity.

#### **NC Common Core**

<u>Third</u>: *Mathematics* – 3.MD.6, 3.MD.7; *English Language Arts* – RI.3.5,

RI.3.4, RI.3.7

<u>Fourth</u>: Mathematics – 4.NF.5; English Language Arts – RI.4.1, RI.4.7 <u>Fifth</u>: Mathematics – 5.NF.4, 5.OA.1, 5.OA.2; English Language Arts – RI.5.6, RI.5.7, W.5.2

## Materials

### **Books to Read**

<u>Local Farms and Sustainable Foods</u> by Julia Vogel <u>Who Grew My Soup?</u> by Tom Darbyshire <u>Saving Strawberry Farm</u> by Deborah Hopkinson

## Supplies for each group

Seed catalogue with planting instructions and yield information Access to the Internet

Scale

One of each vegetable:

Potato

Carrot

Onion

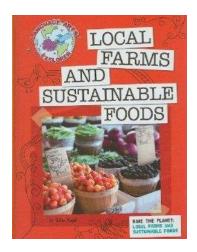

Tomato

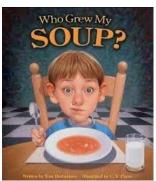

Green Bean

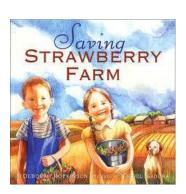

#### **Activities**

#### Read a book

Make the books <u>Local Farms and Sustainable Food</u>, <u>Who Grew My Soup</u>, and <u>Saving Strawberry Farm</u> available to students.

#### **Procedure**

The class will be "growing" vegetable soup. The students will have to figure out how much of each vegetable to grow and how much space will be needed in order to make the soup recipe. You may want to demonstrate how to use the scale for weighing produce. Instruct students to use the seed catalogs and the Internet to calculate the average yield of each vegetable per square foot. Explain to students how to fill in the chart on the student worksheet and double check that they understand how to calculate how many of each vegetable they will need to prepare their soup.

## Extension (optional): Make the Soup!

## **Ingredients and Materials**

3 lbs. potatoes
2 lbs. of carrots
Large spoon
1 lb. onion
Measuring cups
½ lb. green beans
Measuring spoons
2 lbs. tomato
Large bowl

2 lbs. tomato Large bowl 8 bouillon cubes Hot plate 10 cups water Sharp knife

½ cup parsley, chopped 2 tsp. dried marjoram 2 tsp. dried thyme Salt and pepper

## Instructions

3 bay leaves

It is very important to review knife safety with students before proceeding. Students will slice onion and carrots into rounds. Cut potato into cubes. Cut beans into 1 inch pieces. Put in a large cooking pot. Set aside. Students will chop tomatoes into eighths. Put in a bowl. Set aside. Students will add bouillon cubes and water to cooking pot with vegetables. Teacher will be responsible for using the hot plate. Bring to boil.

Reduce heat to medium low and simmer, uncovered, about 10 minutes. Make sure students do not linger around the hot plate. Students will add tomatoes. Add herbs. Stir. Bring back to a simmer. Simmer, uncovered, about 30 minutes, until vegetables are crisp-tender.
